This three story, two bay brick house with shed roof and bracketed cornice is one of the small alley houses built along either side of Churchill St. and which at one time apparently served as housing for the servants of the larger houses on nearby Warren Ave. and Montgomery St.

The house is three stories in height, 17' wide, and occupies a lot about 46' deep. The house is two rooms deep and there are no rear addition. The house is constructed in common bond. The shed roof is capped by a metal cornice consisting of a deeply projecting crown molding set above a row of grooved modillions and a row of quarter-round motifs. Three grooved brackets support the cornice and connect it to a lower molding strip decorated with scallops.

The original lintels of the door and windows have been replaced by new vertical stretcher lintels. The sills are brick headers. All of the window openings are filled with new 6/6 sash. There is a modern six panel door, but no transoms are above. The house has no basement, and the entrance is reached directly from the sidewalk.
